

# Military & Aid Organisations

## Military & Defence Forces

Mobile Kitchens has been involved with numerous projects for Military & Defence forces, as well as international military contractors. Our project solutions have ranged from provision of temporary kitchen facilities for the Australian Navy divers – in multiple locations around the Australia, to heavy duty, mobile facilities to support Australian and international Armed Forces.

## Aid Organisations

Our robust, practical & easy to transport modules are perfectly suited to all manner of aid organisations wanting to provide quick response solutions to natural disasters or population displacement as a result of political unrest or refugee status. Our kitchens and equipment can be easily customisable to allow for culturally sensitive menus, and religious requirements such as Halal.

### Some of our recent project include:

- Provision of kitchen facilities & equipment for refugee camps in Nauru, under the jurisdiction of the Australian Government, United Nations & Red Cross
- Contractual supply of mobile kitchen facilities for one of the worlds largest defence contractors, Cubic Defence
- Design & construct facilities for various international armed forces
- Supply of temporary facilities for Australian Navy during various Naval exercises across Australia
