

# Resource Industries & Infrastructure

## Mining & Resource Industries

Mobile Kitchens has been involved with both temporary and permanent solutions for mining camp kitchens around Australia and to international locations such as Papua New Guinea, Africa & Asia/Middle East. Our solutions have ranged from the provision of temporary facilities during permanent facility upgrades & renovations to stand alone, self contained, turn key kitchen & dining facilities.

## Infrastructure Projects

We have supported many varied infrastructure projects as from road & tunnel infrastructure construction to major projects as a result of damage caused by natural disasters.

### Our recent projects include:

- The provision of kitchen and food service equipment to off shore Oil platform pipe laying barge between Australia & Singapore
- Supply & installation of numerous camp facility kitchens for LNG pipe laying project in Queensland, Australia
- Supply & installation of kitchen & dining facilities for Ok Tedi Mines in Papua New Guinea, where kitchens were transported by boat, then by Chinook helicopter into site
- Supply of kitchen & dining facilities for BHP related project in Newman, Western Australia.
